SUMMARY ORDER

SELF-CERTIFIED

The zoning relief requested in this case was self-certified, pursuant to 11 DCMR § 3113.2.

The Board provided proper and timely notice of the public hearing on this application by publication in the D.C. Register, and by mail to Advisory Neighborhood Commission (ANC) 5B and to owners of property within 200 feet of the site. The site of this application is located within the jurisdiction of ANC 5B, which is automatically a party to this application. ANC 5B submitted a report in support of the application. The report was filed at the public hearing, beyond the 7-day filing requirement. However the Board waived its rules to accept the late filing from the ANC. The Office of Planning (OP) submitted a report in support of all of the relief except for the variance from the lot occupancy requirement.

As directed by 11 DCMR § 3119.2, the Board has required the Applicant to satisfy the burden of proving the elements that are necessary to establish the case pursuant to §

3104.1, for a special exception under section 411.3. No parties appeared at the public hearing in opposition to this application. Accordingly a decision by the Board to grant this application would not be adverse to any party.

Based upon the record before the Board and having given great weight to the OP and ANC reports the Board concludes that the Applicant has met the burden of proof, pursuant to 11 DCMR §§ 3104.1 and 411, that the requested relief can be granted as being in harmony with the general purpose and intent of the Zoning Regulations and Map. The Board further concludes that granting the requested relief will not tend to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Map.

Based upon the record before the Board and having given great weight to the ANC and the Office of Planning reports filed in this case, the Board concludes that the applicant has met the burden of proving under 11 DCMR §§ 3103.2, *(772, 773 and 2115)* that there exists an exceptional or extraordinary situation or condition related to the property that creates a practical difficulty for the owner in complying with the Zoning Regulations, and that the relief can be granted without substantial detriment to the public good and without substantially impairing the intent, purpose, and integrity of the zone plan as embodied in the Zoning Regulations and Map.

Pursuant to 11 DCMR § 3101.6, the Board has determined to waive the requirement of 11 DCMR § 3125.3, that the order of the Board be accompanied by findings of fact and conclusions of law. It is therefore **ORDERED** that this application be **GRANTED**.
